Professional Summary

Reliable and motivated individual pursuing an electrician apprenticeship after several years in software development. My early experience in welding and steel fabrication sparked a lasting interest in hands-on work, which I'm now looking to return to. I bring strong problem-solving skills, attention to detail, and a willingness to learn and contribute to the job.

Core Skills

- Basic understanding of hand and power tools
- Strong attention to detail and safety awareness
- Ability to follow technical instructions and procedures
- Physically fit and comfortable with manual work
- Team collaboration and communication
- Time management and punctuality
- Problem-solving mindset
- Willingness to learn and take direction

Relevant Experience

General Laborer / Helper – Ottawa, ON

Ongoing

- Demonstrated strong problem-solving and attention to detail in a technical environment
- Followed structured processes and documentation to deliver reliable results
- Collaborated with team members to complete projects on time
- Managed multiple tasks while maintaining accuracy and consistency

General Handyman / Residential Work (Informal) – Ottawa, ON

Ongoing

- Assisted with home improvement projects including furniture assembly, flooring installation, and general repairs
- Installed vinyl flooring across a three-storey residential home, including measuring, cutting, and fitting materials
- Operated tools and equipment such as drills, saws, levels, and flooring cutters safely and effectively
- Measured and cut materials with strong attention to accuracy and finish
- Troubleshoot minor issues and completed tasks independently or with others

General Contractor – Abu Dhabi, UAE

2012-2017

- Assisted with welding and steel fabrication projects in a workshop setting
- Measured, cut, and prepared metal sheets using hand and power tools
- Maintained a clean and safe work environment
- Followed instructions closely and supported project completion on schedule
- Formed a quotation for clients to ensure work commitments are well detailed for the project scope

Education

Bachelor of Computer Science Conc. in Software Engineering - Carleton University

Relevant coursework: Foundational Circuits and Signals (ELEC2501), Introduction to Electronics (ELEC2507)

Additional Information

- Available for full-time apprenticeship work in Ottawa
- Flexible schedule and willing to travel
- Strong work ethic and commitment to learning a skilled trade
